

Ericom Connect[®] — Experience No Limits!

Whether you require extreme scalability or an easy, out-of-the-box connection broker, Ericom Connect answers to both — in one robust access management solution that is easy to deploy and use.

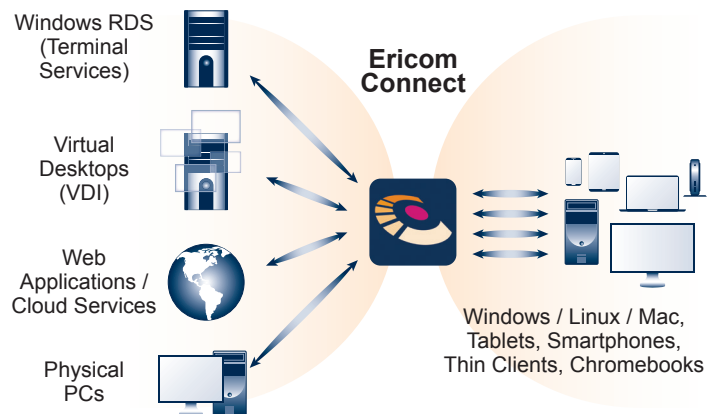

IT JUST WORKS!

Ericom Connect takes enterprise-grade managed access to applications & desktops to new heights, offering unparalleled scalability & ease of use, and powerful reporting & monitoring tools to track app, user and system performance. Supporting up to 100,000 concurrent users per access management server, Connect lets you start out as small as you want, and grow to one million users and more, steadily and predictably.

With over two decades of expertise in the access market, Ericom is a committed vendor who can tailor Connect to your specific access needs and scope. Ericom is also named “A Major Player” in the “IDC MarketScape: Worldwide Virtual Client Computing Software 2015 Vendor Assessment” (doc #256606, June 2015).

REAL BENEFITS!

- **Rapidly deploy virtualized applications & desktops** — in hours, not days!
- **Significantly Reduce IT & Helpdesk workload.** Connect requires no installers, plug-ins or patches
- **Enable Mobility and BYOD.** Enabling application & desktop delivery to any device, anywhere increases user productivity
- **100% Web-based, drag and drop management.** One interface for all deployment, management, and monitoring (including extensive multi-language support)
- **Windows 10 Ready**
- **Modern AccessPortal.** Provides easy, HTML5 browser-based access
- **Excellent Price/Performance.** Decrease server requirements by up to 30% vs alternative solutions
- **Maximize IT assets.** Optimizes IT investment costs while lowering IT complexity and overhead
- **Turn IT from a cost center into an operational data goldmine.** Leverage a wealth of IT operational data via powerful reporting, proactive troubleshooting and more
- **Ensure Business & Workforce Continuity.** Robust, always-on access mitigates productivity interruptions

Ericom Connect — Scalable, enterprise-grade access to Windows applications and desktops, from any device, anywhere

WHY ERICOM CONNECT®?

Advanced Grid Architecture. Ericom Connect's highly available, super-scalable and robust architecture is capable of supporting thousands of hosting servers and hundreds of thousands of user sessions.

Powerful Reporting for Business Insight. With Connect's dozens of built-in reports, you get a holistic view of system resources, users and session activity — making it extremely easy to track and optimize application and desktop usage, monitor user productivity, measure system workload and health, and troubleshoot connectivity issues or error.

100% Web-based Administration. Multiplying by ten-fold the management capacity of alternative solutions, Connect's easy-to-use, drag and drop Web-based interface lets you deploy, manage and monitor all system components — without installing any plug-ins or installers.

All this makes for a very powerful, yet easy tool to manage hundreds, if not thousands, of resources and users from a single interface, while also eliminating the overhead of having to deploy, configure, and maintain a client-based admin tool.

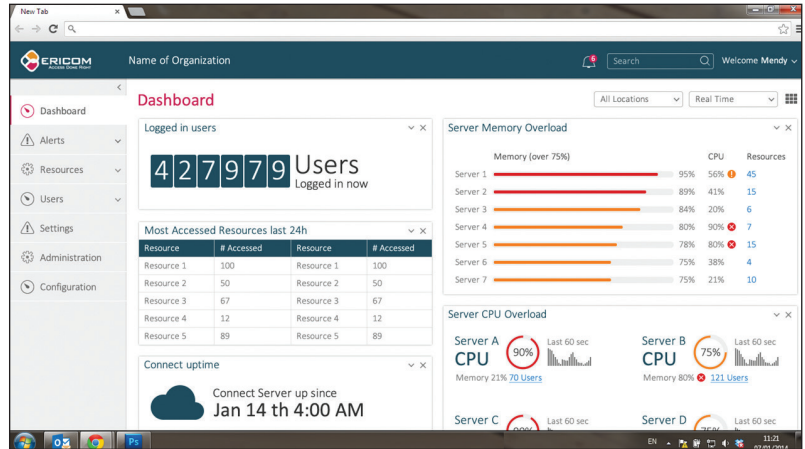

THE FLAVORS OF ERICOM CONNECT

Ericom Connect Enterprise
For organizations with 1000+ users who need a flexible, highly scalable solution.

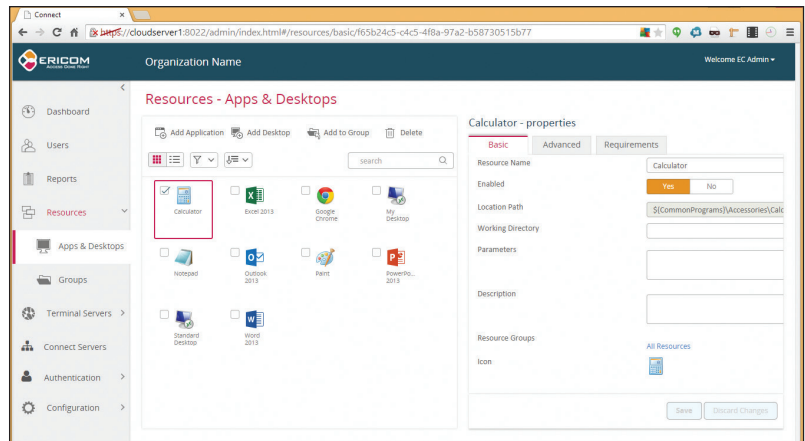

Ericom Connect Professional
For small to medium sized organizations with less than 1000 users.

"Ericom Connect... The whole thing just feels really intuitive. You can create groups of applications, groups of servers, and groups of users that you then manage as a group. So you can associate a group of apps with AD items and apply groups to hosts."

— Brian Madden, Virtualization Expert
