Ericom® Blaze

A BREAKTHROUGH IN RDP ACCELERATION AND COMPRESSION

EMPOWER USERS WITH UP TO 10x FASTER RDP — ESPECIALLY FOR GRAPHICS & ANIMATIONS!

A superior end-user experience is critical to the overall success of any remote access solution. With Ericom Blaze, transform RDP into a fast, responsive, and extremely efficient remote display protocol. Dramatically reduce bandwidth consumption and optimize RDP network traffic across the WAN/LAN — in minutes!
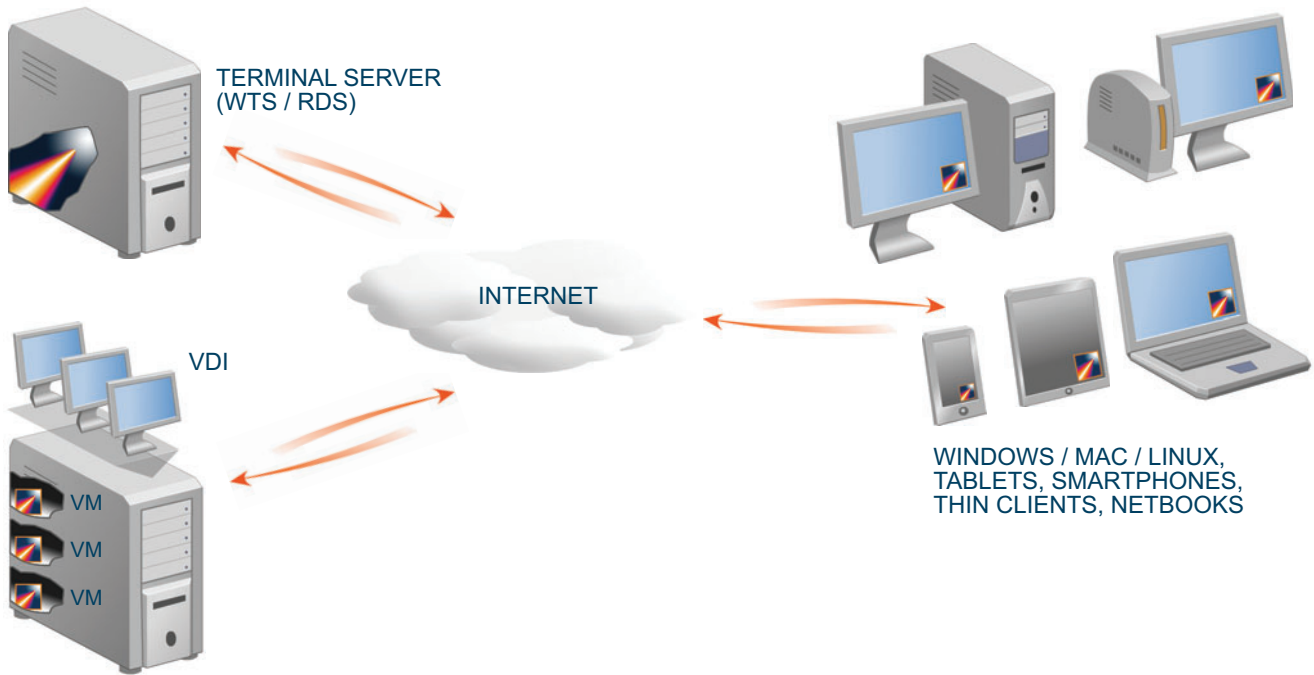

Microsoft RDP

Ericom Blaze

Side-by-side, performance comparison between Microsoft RDP and Ericom Blaze over a WAN connection.

ERICOM BLAZE HIGHLIGHTS

- **Accelerates delivery of graphics-rich content,** e.g., browsers, maps, PDF files, streaming video, radiology images, and Adobe Flash over WAN, congested LANs and slow network connections

- **Speeds up RDP connections** to Windows Terminal Servers, Virtual Desktops (VDI) and Physical Desktops (Blade PCs/ Remote Workstations) — even by up to 25 times in select WAN scenarios

- **Broad device compatibility** with Windows, Mac, Linux, iPad, iPhone, Android tablets & smartphones, and Win CE

- **Built-in universal printing solution** — No need to install printer drivers on your servers for every specific printer make and model being used

- **Delivers a superior local PC-like experience** to remote users, enhancing mobility and productivity

- **Makes life easier for IT staff** by significantly reducing complaints related to the negative effects of slow/high latency connections, including modem, WAN, wireless and cross-continent connections

- **Ericom's scalable, high performance SSL Gateway** is fast, flexible, easy to install and configure, and provided free of charge. Protect your business-critical resources from outside the firewall, without having to purchase an SSL/ IPSec VPN

- **Removes RDP performance barriers** to the widespread adoption of Desktop Virtualization (VDI), Terminal Services (RDS) and thin client computing
